

# Unit 1 at a Glance

## Creation 1

### Unit Overview

Two and three year olds are incredibly observant. They often notice the simple joys of God's creation that adults take for granted. In this unit the children will learn that it is God who created all things. The unit will specifically focus on the following aspects of God's creation: day, night, clouds, sky, sun, moon and stars.

### Unit Goals

- The children will identify day, night, clouds, sky, sun, moon and stars.
- The children will learn that God created these things to make them happy and to take care of them.
- The children will learn to thank God for what he has created.

## Unit Contents

---

### Bible Truth

God made day and night. (Genesis 1:5)

### Lesson 1 Day and Night

The children will learn that God created day and night. Through different activities they will understand the difference between day and night, and the difference between light and dark.

### Lesson 2 Clouds and Sky

The children will learn that God made the sky and the clouds. They will also learn that God controls the weather.

### Lesson 3 Sun, Moon and Stars

This lesson will help the children understand that God created the sun, moon and stars. The children will associate the sun with daytime and the moon and stars with nighttime.

### Lesson 4 Review

This lesson reviews all the concepts presented in the previous lessons of this unit.

Dear Parent,

Two and three year olds are incredibly observant. They often notice the simple joys of God's creation that adults take for granted. In this unit the children will learn that it is God who created all things. The unit will specifically focus on the following aspects of God's creation: day, night, clouds, sky, sun, moon and stars.

On the reverse side of this page, you will find an outline and description of the lessons which comprise this unit. Included is a Bible Truth for you to review with your child at home. Please note that this is simply a biblical concept and not an actual verse.

Your active involvement outside the classroom is essential and will truly make the Kingdom Kids Curriculum a great success for your child. Here are some suggested ways you can reinforce these lessons at home:

- Act out activities your child does in the morning: waking up, brushing teeth, eating cereal, putting on socks and shoes, and saying "good morning." Then act out activities your child does in the evening: taking off shoes and socks, taking a bath, and saying prayers. Talk about day and night with your child, pointing out that God made them both.
- In a darkened room, use a flashlight to show the difference between light and dark. Shine the light on different objects in the room. Explain that God made the dark, and then he made the light.
- At night have a "star search" to find stars and to see the moon. Talk to your child about how God made the sun to light the day and the moon to light the night. Explain how the stars help us to find our way at night.
- Point out the sun to your child early in the morning, or at sunset, when it is most visible. Help your child to notice the clouds in the sky. Discuss that God made clouds and that clouds float in the sky.
- Using cotton balls, make simple and recognizable cloud shapes together. Discuss how clouds in the sky have different shapes.

We look forward to being partners with you as together we help plant Seeds of Faith in the heart and mind of your child.

Thank you,

Your child's teachers

# Unit 1 Song Sheet

## Creation Song

Day one, day one, God made light when there was none. (repeat)

Day two, day two, God made the clouds and the sky so blue. (repeat)

Day three, day three, God made flowers, grass and trees. (repeat)

Day four, day four, God made sun, moon and stars galore. (repeat)

Day five, day five, God made the birds and fish alive. (repeat)

Day six, day six, God made man and animals like this. (repeat)

Day seven, day seven, God is resting in his heav'n. (repeat)

## Twinkle Twinkle, Little Star

Twinkle, twinkle, little star,  
how I wonder what you are.  
Up above the world so high,  
like a diamond in the sky.  
Twinkle, twinkle, little star,  
how I wonder what you are.

## This Little Light of Mine

This little light of mine,  
I'm gonna let it shine. (repeat twice)

Chorus:

Let it shine, let it shine, let it shine, oh yeah!

2. When I'm with my parents,  
I'm gonna let it shine. (repeat twice)
3. When I'm at the playground,  
I'm gonna let it shine. (repeat twice)
4. All around my neighborhood,  
I'm gonna let it shine. (repeat twice)
5. Hide it under a bushel. NO!  
I'm gonna let it shine. (repeat twice)
6. Won't let Satan blow it out,  
I'm gonna let it shine. (repeat twice)
